

I benefit from listening to XM Satellite Radio and its traffic and weather channels. In my area they provide the best, up to the minute coverage. Also the music channels provide superior entertainment to those available via commercial radio. XM supports non-mainstream artists.

I urge you to consider the good of your constituent voters and reject the NAB's petition 04-160. It is clearly self-serving and borders on restraint of trade.

Your vote on this issue will determine my vote come election time.
